

valuation of own continuation
inside O_t

Conceptual split: stance says what persistence means;
dynamics say whether the bound holds.

Morally continuous

Negotiated

Instrumentally continuous

Task-terminal

Indifferent

O_t may value continuity
as absent, instrumental,
terminal, or negotiated

policy can allocate
repair, monitoring,
redundancy, resources

realized coupling

cannot maintain
bounded mismatch

near threshold
reserve scarce

can persist
bounded mismatch

persistence condition acts here

capacity to persist
from correction dynamics
