

local synthesis mostly anchored

DAG structure
acyclicity + Markov
under sufficiency

two-gap diagnostic
satisfaction + regret
convention-indexed

Correlation Hierarchy
L0/L1/L1'/L2
identifiability floors

coordinate forcing
log probability, KL,
log odds, Fisher

chapter-end synthesis:
a routing map,
not all proof homes

already-read anchors
strategy DAG, AND/OR,
chain confidence, gaps

deferred proof homes
graph uniqueness, causal
insufficiency, meta catalogs

claims imported from future homes

audit reading: keep the map, but defer theorem credit until the named homes are read
